Leghorne, Nov. 24. N. S.

THE Weymouth Man of War, Captain Thomas Poulden Commander, and the Sorlingues, commanded by Capt. Wortill, arrived here on the 20th Inſtant, being Convoy to ſeveral Engliſh Merchant-ſhips from Newfoundland.

Venice, Dec. 12. An Expreſs is arrived here from Carlowitz with Letters from the Venetian Ambaſſadors at the Congreſs, bringing Advice, That on the 28th of the laſt Month a Truce of 25 years was concluded between the Emperor and the Grand Signior; and that the Turkiſh Ambaſſadors had declared, That ſeeing the War between the two Empires was begun by the Port, it was juſt his Imperial Majeſty ſhould remain Maſter of all that his Arms had gained from them during the ſaid War; But as to the Republick of Venice, who were the Aggreſſors, they ought to reſtore, or at leaſt diſmantle the Fortreſs of Lepanto, and ſuch other Places as are Dependencies of the Provinces which the Turks are now in Poſſeſſion of. This has been conſidered of by the Senate, who have thereupon framed their laſt Inſtructions to their Ambaſſadors, and ſent them to Carlowitz by an Expreſs. The Senate have appointed three of their Number, as a Committee, to regulate ſeveral Matters relating to the Morea. The Chevalier Spinola is come hither from Vienna, in his way to Maltha, whither he is going to Command the Galleys of that Order next Summer. The Martha, Captain Lawrence Commander, arrived here this week from Norway, but laſt from Scotland.

Dantzick, Dec. 8. Our Letters from Brezza in Lithuania ſay, a Great Council is to be held there on the 9th Inſtant, to conſider of the moſt proper Methods for putting an End to the Diſorders of that Province; and that in the mean time, the chief of the two Contending Parties, whoſe Diviſions have been the principal Occaſion of theſe Troubles, are marched to Grodno with great Numbers of their Followers, and are encamped near that City; But divers Senators, and other Perſons of Quality that were come thither on purpoſe to interpoſe between the two Parties, have prevailed with them to forbear all Acts of Hoſtility, and have begun a Negociation for Reconciling them, which it's hoped may be happily ended before the meeting of the Council at Brezza.

Carlowitz, Decemb. 3. On the 28th of the laſt Month, the Mediators and the Imperial and Turkiſh Ambaſſadors met at the Congreſs, and agreed upon a Truce of 25 years between the two Empires. The next day the Treaty to that effect was put into Form, and was finally ſettled on the firſt Inſtant. Yeſterday the Ambaſſador of Muſcovy came to the Conference, where divers Points relating to the Czar his Maſter, from whom the Turks demand the Reſtitution of Dogan, Galezi, and ſome other Forts near the River Nieper, were Debated. The Affairs of Poland were conſidered this day, and theſe Negociations go on with ſuch good Succeſs, that 'tis not doubted but they will be finiſhed in a few days; The only conſiderable Difficulty which remains, is, That the Turks demand of the Republick of Venice, that Lepanto, and ſome other Places on the Frontiers of the Morea, be diſmantled; Upon which, the Venetian Ambaſſadors (having no Orders to conſent thereto) has diſpatched an Expreſs to the Senate to receive further Inſtructions.

Vienna, Dec. 13. Count Marſigli, one of the Emperor's Miniſters for Treating a Peace with the Turks, who came hither ſome days ago from Carlowitz, to give his Imperial Majeſty an Account of the Proceedings at the Congreſs, will return to that Place in a day or two. Our laſt Advices from thence ſay, that ſince the concluding of the Truce between the Emperor and the Ottoman Port, a great Progreſs has been made in the Negociations relating to our Allies, and that 'twas hoped the Treaty would in a very ſhort time be finally Adjuſted and Signed by all Parties. The Emperor has demanded a Subſidy of 4 Millions of Livres of the States of Hungary. Great Preparations are making for the King of the Romans Marriage, which it's believed will be Celebrated next Carnaval. The Office of High Steward to his Imperial Majeſty, vacant by the Death of the late Prince of Dietrichſteyn, is given to the Old Count Harrach, who was lately Ambaſſador in Spain. Cardinal Grimani is arrived here from Rome, to Negociate an Agreement of the Differences between this Court and the Pope, concerning the Imperial Fiefs in Italy. The Biſhop of Raab is likewiſe come hither from Poland; And General Caprara, with divers other Officers, are returned from Hungary. The two Commiſſaries of the Imperial Magazines in Hungary, who were lately ſentenced to die for Imbezelling the Stores they were entruſted with, have been executed; and another of them has been ſince tried, who being found guilty of the like Crimes, is to undergo the ſame Puniſhment. The Heet Fortſner, Commiſſary-General, who was concerned with them, is condemned to a Perpetual Impriſonment.

Berlin, Dec. 2. The Elector of Brandenbourg has appointed Count Denhoff to go with the Character of his Ambaſſador to the Court of Vienna, to receive the Emperor's Inveſtiture for the Electorate of Brandenbourg, which Ceremony has been delayed hitherto by reaſon of the late War. His Electoral Highneſs has made Lieutenant-General Lottrum Governor of the Fortreſs of Spandau. Part of the Forces of Brandenbourg are ordered to go into Winter Quarters on the Borders of the Mark of Brandenbourg, and on the Frontiers of Pomerania, and of the Dutchy of Caſſubia, and are to be commanded by Major-General Naſtmar and Major-General Slabbendorp.
